To Whom It May Concern:

My name is Richard Chiriboga and I am a driven and collaborative professional, and would bring to this position extensive experience in Web Development and Technical Project Management, across non-profit, boutique agency and global company environments.

Most recently, I was the Senior Manager, Web Development with the Avon Breast Cancer Crusade. In this role I led the web team and managed the web properties for the organization. I oversaw all aspects of AvonBCC.org and AVON39.org, including property look and feel, security, and functionality. As a trusted partner to multiple functions, disciplines, and vendors, I honed my skills communicating complex information to both technical and non-technical users. I was responsible for managing the organization's day-to-day technical activities and providing oversight and management for third-party vendors.

I am also a certified ScrumMaster and have written WordPress plugins that utilize third-party API's to get data into the WordPress environment. These plugins include Classy.org API, Luminate Online API, and custom Plugins for WuTangClan.net, such as the "Wu Quiz", "Wu Tang name generator" and "Wu-wisdom" sections. In addition, I have built a number of websites, including: CorrienteLatina.com, WuTangClan.net, AvonBCC.org, and Wu16Bars.com.

I am excited by the opportunity to utilize my skillset to contribute a company where we can work as a team to achieve something great. I would love to have a conversation with you to determine if I would be the right fit. Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Richard Chiriboga
